Product Description

Product Description:

One of the most impressive features of this Type-C cable is the charging power it supports. The Type-C to Type-C USB 2.0 cable can handle charging power of 5V1A, 9V3A, 12V5A, 20V5A, and 48V5A, making it an ideal choice for various devices such as smartphones, tablets, laptops, etc.

In addition to its impressive charging capability, the cable also has a theoretical maximum transmission speed of 480Mbps, equivalent to approximately 60M/s. This means that you can quickly and easily transfer large files, stream media, and perform other data intensive tasks.

The Type-C to Type-C USB 2.0 cable is available in various lengths, including 1M, 1.2M, 1.5M, 1.8M, 2M, and 3M. This makes it easy to find the length that best suits your needs, whether you need short cables for mobile use or long cables for home or office use.

Whether you are using your device for work, entertainment, or communication, Type-C to Type-C USB 2.0 cables are currently a popular choice in the market.
