Applications:

The Type-C To Lightning cable is a multi-purpose product that can be used in various occasions and scenarios. It can be used to connect HUBs, cables, converters, docking stations, phone/laptop holders, adapters, and many other products. The cable's interface is Micro-USB, making it compatible with most devices.

This cable is made of high-quality PVC material, which ensures its durability, tangle-free, and long-term cleanliness. It does not accumulate sweat, fingerprints, or dirt, ensuring that it stays clean and new for a long time.

The Type-C To Lightning cable is suitable for various applications. For instance, it can be used to connect an iPhone to a MacBook Pro for data transfer, charging, and syncing. It can also be used to connect an iPad to a Type-C-enabled computer, allowing for easy file transfer and charging.

The Type-C To Lightning cable is also ideal for professionals who use Apple devices for work. It allows them to connect their devices to other peripherals, such as external storage devices, monitors, printers, keyboards, and other accessories. This cable is an essential tool for anyone who needs to connect Lightning-enabled devices to Type-C devices.

Support and Services:

The Type-C To Lightning product technical support and services include:
- Troubleshooting for product issues
- Assistance with product setup and installation

- Guidance on product compatibility with devices and systems
- Repair or replacement of defective products covered under warranty

Packing and Shipping:

Product Packaging:
The Type-C to Lightning product comes in a compact and sturdy box that ensures safe delivery. The box contains the following items:
Type-C to Lightning adapter
User manual
Shipping:
The product will be shipped within 24 hours of order confirmation. We use reliable shipping services to ensure timely delivery. Shipping charges may apply and will be calculated at checkout.
