## Product Description

### Product Description:

One of the key features of these earphones is the EMF and radiation protection they offer. This means that you can use them for long periods without worrying about any negative effects on your health. The earphones have been designed to protect you from harmful radiation and electromagnetic frequencies, making them a safe and healthy choice for everyday use.

The JIZHI Wired Earphones are also unique in that they have a private mold design. This means that the earphones have been custom-designed to meet the specific needs of the JIZHI brand. As a result, you will not find these earphones anywhere else. They are a one-of-a-kind product that has been designed with the user in mind.

The earphones come in an opp bag, which makes them easy to store and transport. You can keep them in your bag or pocket and take them with you wherever you go. This makes them perfect for use at home, work, or on the go.

Overall, the JIZHI Wired Earphones are an excellent choice for anyone who is looking for a high-quality audio experience. They are compatible with a wide range of devices, offer EMF and radiation protection, have a unique private mold design, and come in a convenient opp bag package. Whether you are looking for wired earphones or Type-c Wired Earphones, these earphones are sure to meet your needs and exceed your expectations.
