Product Description

Product Description:

With our Type-C Wired Earphones, you can enjoy your favorite music and podcasts without the hassle of tangled wires. The Type-C connector ensures a stable and secure connection to your device, while the 3.5mm jack type allows for easy connectivity to a range of devices.

Our Type-C Wired Earphones are also equipped with a built-in remote control, allowing you to easily adjust the volume, skip tracks, and answer calls all without having to take your device out of your pocket or bag.

As a product in the Wired Earphones category, our Type-C Wired Earphones provide exceptional sound quality that is perfect for music lovers, podcast enthusiasts, and anyone who values a great audio experience. With a frequency range of 20Hz to 20kHz, these earphones deliver crisp highs and deep lows, ensuring that you get the most out of your music.

Our Type-C Wired Earphones also come with EMF and radiation protection, ensuring that you can enjoy your music without having to worry about any potential health risks. This feature makes these earphones suitable for people of all ages, including children and teenagers.

In summary, our High Audio Quality Type-C Wired Earphones are the perfect choice for anyone who values exceptional sound quality, compatibility, and convenience. With their built-in remote control, Type-C connector, and 3.5mm jack type, these earphones provide a seamless audio experience that is perfect for music lovers and podcast enthusiasts alike. Plus, with EMF and radiation protection, you can enjoy your music without any health concerns. So why wait? Get your pair of Type-C Wired Earphones today!

Applications:

These wired earphones are perfect for a variety of occasions and scenarios. Whether you're commuting to work, studying in a library, or working out at the gym, these earphones will provide you with a clear and immersive audio experience.

The JIZHI Type-C Wired Earphones are also versatile and compatible with a wide range of devices. They are designed to work seamlessly with smartphones, laptops, tablets, and other devices that feature a Type-C port. The product's certification by CE, ISO9001, RoHS, and FCC ensures that they meet the highest standards of quality and safety.

The vocalism principle utilized in these earphones is electrostatic, which means that they produce sound by using a high voltage charge rather than a traditional dynamic driver. This results in a more natural and detailed sound that is perfect for music enthusiasts and audiophiles alike. Additionally, the earphones come with music and video playback controls, allowing you to easily switch between your favorite songs and videos without having to remove the earphones.

These JIZHI Type-C Wired Earphones come in an opp bag package, making them easy to store and carry around. They are made in Dongguan China, a place known for producing high-quality electronics. Whether you're looking for earphones for personal use or as a gift for a friend or family member, these wired earphones are an excellent choice.

In conclusion, the JIZHI Type-C Wired Earphones are a top-of-the-line product that guarantees high audio quality, good compatibility, and versatility. They are perfect for a wide range of occasions and scenarios and are certified by CE, ISO9001, RoHS, and FCC. With their electrostatic vocalism principle and music and video playback controls, these earphones are a must-have for anyone who values audio quality.

Support and Services:

Our Wired Earphones product comes with comprehensive technical support and services to ensure that you have the best possible experience with our product.
