- Highlight: custom length 3 in 1 hub,
data transmit 3 in 1 docking station,
oem 3 in 1 charging dock

Product Description

Small Size Easy To Carry 3-In-1 Hub Docking Station Can Connect To Monitors Transmit Data

Features:

1. Versatility: The three in one docking station is designed specifically for laptops, new phones, Switch game consoles, and other devices, and can connect multiple peripheral devices through the Type-C interface. Supports data transmission and device charging, with USB 3.0 interface, HDMI interface, etc. It can connect external devices such as portable hard drives, USB drives, mice, keyboards, game controllers, printers, etc. It also supports the connection of devices such as 4K high-definition TVs and projectors, achieving high-resolution output and data transmission speeds of up to 5Gb/s, meeting efficient and stable work and entertainment needs
2. Convenience: The design of the three in one docking station takes into account users' portability needs, with a small size and easy portability.

Support HDCP & Nintendo
