5 In 1 Docking Station Hub 4K USB 3.0 And USB2.0 Ports 2xType C For Computer Laptop

Our Product Introduction

Basic Information

- Place of Origin: Dongguan China
- Brand Name: JIZHI
- Certification: CE / ISO9001 / RoHS / FCC
- Model Number: 5-in-1 Hub
- Minimum Order Quantity: 2000

Product Specification

- Customized Processing: YES
- Printed LOGO: YES / OEM
- Interface Type: USB 3.0
- Cable Length: Customize
- Type: 5-in-1 Hub
- Brand: JIZHI
- Highlight: **4k usb 3.0 5 in 1 docking station**,
                         oem 5 in 1 docking station

Product Description

5-In-1 Hub Docking Station 4K USB 3.0 And USB2.0 Ports 2*Type C For Computer Laptop

As the name implies, a five-in-one docking station is a docking station that integrates five interfaces, usually including the following five interfaces:

1. HDMI interface:
Used to connect to monitors, TVs and other devices, and can output video and audio signals.
The supported video resolution and refresh rate depend on the specific model of the docking station.
2. USB-A interface:
Used to connect devices such as mice, keyboards, USB flash drives, mobile hard drives, etc.
Usually provide one or more USB-A interfaces.
3. SD card slot or Micro SD card slot:
Used to read data from SD cards or Micro SD cards.
It is convenient to transfer photos, videos and other data from SD cards or Micro SD cards to computers or other devices.
4. Type-C interface:
Used to connect to other devices, such as mobile phones, tablets, etc.
Some five-in-one docking stations also provide PD fast charging function, which can quickly charge connected devices.
5. RJ45 network port:
Used to connect to wired networks, which can provide more stable network connections.
