## Product Description

### USB-C Multi-Port Usb C Hub 6 In 1 To HDMI TF SD Card Reader Usb Hub

**Six-in-one docking station is a multifunctional peripheral that integrates multiple interfaces to meet the user's various connection needs in different scenarios. This docking station usually has the following features:**

1. Interface diversity: Six-in-one docking stations are usually equipped with multiple interfaces such as HDMI, USB3.0, USB2.0, PD charging interface, SD card slot and TF card slot, which can meet various needs such as connecting to external displays, transmitting data, charging and expanding storage space.
2. High-speed transmission: The USB3.0 interface supports a transmission rate of up to 5Gbps, which can meet the needs of high-speed data transmission, provide faster file transfer speed and smoother video transmission experience.
3. Compatibility: Six-in-one docking stations are usually compatible with Mac OS, Windows, Linux, Android, iPad and other operating systems, providing a wide range of compatibility to meet the use needs of different devices.
4. Portability: Six-in-one docking stations are usually designed to be small and portable, easy for users to carry with them, and can be flexibly switched between different devices.
