

## Electrical Power Cable Engineering Industrial Electrical Cord With HDPE Insulation

Our Product Introduction

for more products please visit us on [jizhidatacable.com](http://jizhidatacable.com)

### Basic Information

- Place of Origin: Dongguan China
- Brand Name: JIZHI
- Certification: CE / ISO9001 / RoHS / FCC
- Model Number: Engineering Cable

### Product Specification

- Wear Resistance: Yes
- Low Temperature Resistance: Yes
- Jacket Color: Grey, Blue, White, Black (Customized)
- Brand: JIZHI
- Keyword: Engineering Cable
- High Temperature Resistance: Yes
- Highlight: customized electrical power cable engineering, hdpe insulation industrial electrical cord, OEM industrial electric wire and cable

## Product Description

### Product Description:

The Engineering Cable is designed with HDPE insulation material, which provides superior protection and durability. This insulation material ensures that the cable can withstand harsh environmental conditions and maintain its performance over time. Additionally, the cable is tested and certified for low-temperature resistance, ensuring that it can function efficiently even in extreme weather conditions. The Engineering Cable comes with various certificates, including CE, RoHS, and FCC, which certify that the cable meets international standards for quality, safety, and environmental protection. These certifications give users peace of mind knowing that they are using a safe and reliable cable that meets all regulatory requirements.

Overall, the Engineering Cable is an excellent choice for anyone in need of a high-quality cable for engineering applications. With its various shield options, customizable conductor sizes, HDPE insulation material, low-temperature resistance, and international certifications, this cable is sure to meet all your engineering cable needs.

### Features:

Product Name: Engineering Cable

Printing Words On Cable: Customized

Wear resistance: Yes

Corrosion resistance: Yes

Application: 100 Base-T4, 100 Base-TX, 100 VG-AnyLAN, 1000 Base-T (Gigabit Ethernet), ATM

Jacket Material: PVC, LSZH

### Technical Parameters:

Product Attribute	Value
Product Name	Engineering Cable
Wear resistance	Yes
Printed LOGO	YES / OEM
Jacket Color	Grey, Blue, White, Black (Customized)
Brand	JIZHI
Low temperature resistance	Yes
High temperature resistance	Yes
Customized Processing	YES
High tensile strength	Yes
Insulation Material	HDPE
Conductor Size	23AWG, 24AWG, 26AWG (Customized)

### Applications:

The JIZHI Engineering Cable comes in different customizable conductor sizes such as 23AWG, 24AWG, and 26AWG. Its high tensile strength makes it suitable for applications that require durability and long-lasting performance. It also has low temperature resistance which makes it perfect for use in extreme environments.

The JIZHI Engineering Cable is ideal for various data transmission applications such as 100 Base-T4, 100 Base-TX, 100 VG-AnyLAN, 1000 Base-T (Gigabit Ethernet), and ATM. This makes it perfect for use in networking applications in offices, data centers, and other commercial and industrial settings.

In addition, the JIZHI Engineering Cable is certified with CE, RoHS, and FCC which guarantees its compliance with safety and environmental regulations. This makes it a reliable and safe product to use in various applications.

Overall, the JIZHI Engineering Cable is a top-quality product that is suitable for a range of applications. Its customizable conductor sizes, high tensile strength, low temperature resistance, and certifications make it the ideal choice for anyone looking for a reliable cable for their networking needs.

### Support and Services:

Our Engineering Cable product technical support team is available to assist with any questions or concerns regarding the installation, maintenance, and troubleshooting of your cable system. We offer customized solutions to meet your specific needs and can provide technical documentation and training to ensure optimal performance. Our services also include field support and on-site repairs, as well as remote diagnostic and monitoring capabilities. We are committed to providing high-quality service and support to ensure the reliability and longevity of your cable system.

**Packing and Shipping:**

Product Packaging:  
Each cable is wrapped in a plastic bag to protect it from dust and moisture.  
The cable is then placed in a sturdy cardboard box with appropriate cushioning to prevent damage during shipping.  
The box is labeled with the product name, quantity, and any necessary handling instructions.

Shipping:  
Orders are processed within 24 hours of receipt and shipped via standard ground shipping.  
Expedited shipping options are available at an additional cost.  
Customers will receive a tracking number once the order has been shipped.  
Please allow 3-5 business days for delivery within the United States, and longer for international shipments.

**FAQ:**

Q: What is the brand name of this product?  
A: The brand name of this product is JIZHI.  
Q: What is the model number of this product?  
A: The model number of this product is Engineering Cable.  
Q: What certifications does this product have?  
A: This product is certified with CE, ISO9001, RoHS, and FCC.  
Q: Where is this product manufactured?  
A: This product is manufactured in Dongguan, China.  
Q: Is this product suitable for engineering applications?  
A: Yes, this product is specifically designed for engineering applications.
